After you select an option under one of the main menu categories, you will be asked for an account type code. Account types are indicated by a two digit number. The following are the account types currently used on our system: When requesting a balance or using a transaction, try one of the type codes until you find one that belongs to your account. Once you find the one that represents your account, make a note of it. When you get your December 31st statement, the account types will be listed. Thank you for your cooperation.
